EJE-500-CL2

Vacuum Gas Feed Ejector Assembly

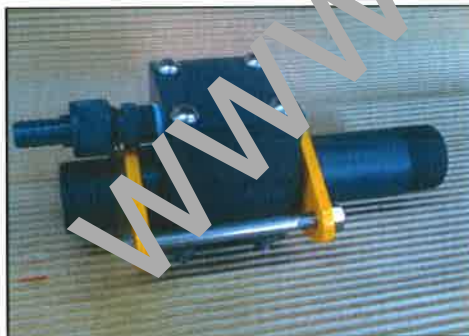

EJE-100-CL2

Application to 100ppd CL2 vacuum gas feed
Supplied with 3/8" tubing connector standard
Combination 3/4" MPT / 1" hose inlet & outlet
Spring loaded diaphragm check valve with
gasket seal

EJE-250-CL2

Application to 250ppd CL2 vacuum gas feed
Supplied with 1/2" tubing connector standard
-1/4" MPT inlet & outlet connections
Spring loaded diaphragm check valve with
gasket seal

EJE-500-CL2

Application to 500ppd CL2 vacuum gas feed
Supplied with 5/8" tubing connector standard
1-1/4" MPT inlet & outlet connections
Spring loaded diaphragm check valve with
o-ring seal

Materials of Construction:

Body Components: CNC Machined PVC Type 1, 12,800psi yield strength
Springs: Hastelloy C-276
Diaphragms: Thermal Formed Halar® 300LC ECTFE
O-Rings & Gaskets: Viton® with no color additives, Lead
