

TECHNICAL DATA SHEET

PRODUCT NAME : MAGNESIUM SULPHATE HEPTAHYDRATE
FOMULA : MgSO₄.7H₂O
APPEARANCE : White Crystalline Powder
APPLICATIONS : Magnesium Sulphate Heptahydrate is an inorganic compound made of magnesium, Sulphur and oxygen. Also known as Epsom salt, this powdered substance is widely used in Agriculture and Horticulture (technical grade) fields to improve the soil fertility levels. Moreover, it is use in the chemical, shrimp farm and feed.

PROPERTIES	SPECIFICATION
Purity	99.50% min.
Magnesium Sulfate (MgSO ₄)	48.00% min.
Magnesium Oxide (MgO)	16.00% min.
Magnesium (Mg)	9.50% min.
Sulfur (S)	12.00% min.
Chlorine (Cl)	0.15% max.
Water Insoluble	0.02% max.

PACKING : 25 KG/BAG
ORIGIN : China
