

TECHNICAL DATA SHEET

PRODUCT NAME : MANGANESE SULPHATE MONOHYDRATE
FORMULA : $MnSO_4 \cdot H_2O$
APPEARANCE : White to pinkish powder
APPLICATIONS : Manganese sulfate monohydrate is used to produce manganese by an electrolytic process. The compound is used for dyeing textiles; for producing red glazes on porcelain; in varnish driers; in fertilizers; and in animal feeds to provide manganese as an essential trace element.

PROPERTIES	SPECIFICATION
Purity	98.00% min.
Manganese (Mn)	31.80% min.
Cadmium (Cd)	0.001% max.
Arsenic (As)	0.0005% max.
Lead (Pb)	0.001% max.
Mercury (Hg)	0.00001% max.
Sulphur (S)	17.50% min.

PACKING : 25 KG/BAG

ORIGIN : China
