

TECHNICAL DATA SHEET

PRODUCT NAME : POTASSIUM HUMATE
FOMULA : C₉H₈K₂O₄
APPEARANCE : Black Powder or Flake form
APPLICATIONS : It is used in agriculture as a fertilizer additive to increase the efficiency of fertilizers especially nitrogen and phosphorus based fertilizer inputs. Other salts of humic acid are manufactured, mainly sodium humate which is used in animal health supplements. It also can be used in Aquaculture.

PROPERTIES	SPECIFICATION
Purity	70.00% min.
Potassium Oxide (K ₂ O)	12.00% min.
Moisture	15.00% max.
pH	8-11
Water Soluble	95.00% min.

PACKING : 20 & 25 KG/BAG
ORIGIN : China
