

**TECHNICAL DATA SHEET**

**PRODUCT NAME :** ACTIBOR 15G  
**FOMULA :** Na<sub>2</sub>B<sub>4</sub>O<sub>7</sub>.5H<sub>2</sub>O  
**APPEARANCE :** White Granular  
**APPLICATIONS :** Used to make mixed fertilizer or to sow plants grown in the rainy areas. It is highly soluble without any residue. This property makes ACTIBOR 15G a versatile source of Boron in solid & liquid multi-micronutrient formulations, suspension fertilizers and also for direct application in soils.

PROPERTIES	SPECIFICATION
Boric Oxide (B <sub>2</sub> O <sub>3</sub> )	48.00% min.
Boron (B)	15.00% min.
Sodium Oxide (Na <sub>2</sub> O)	21.25% min.
Bulk Density	0.85-0.95 gr/cm <sup>3</sup>
Insoluble in water	0.013% max.
Sieve Analysis	2-4 mm

**PACKING :** 25 KG/BAG  
**ORIGIN :** Malaysia
